SmartBracket mounting panel without holding screw	SmartBracket mounting panel with holding screw
Common battery	Enhanced battery
Available for all PROs	Available only for accredited partners

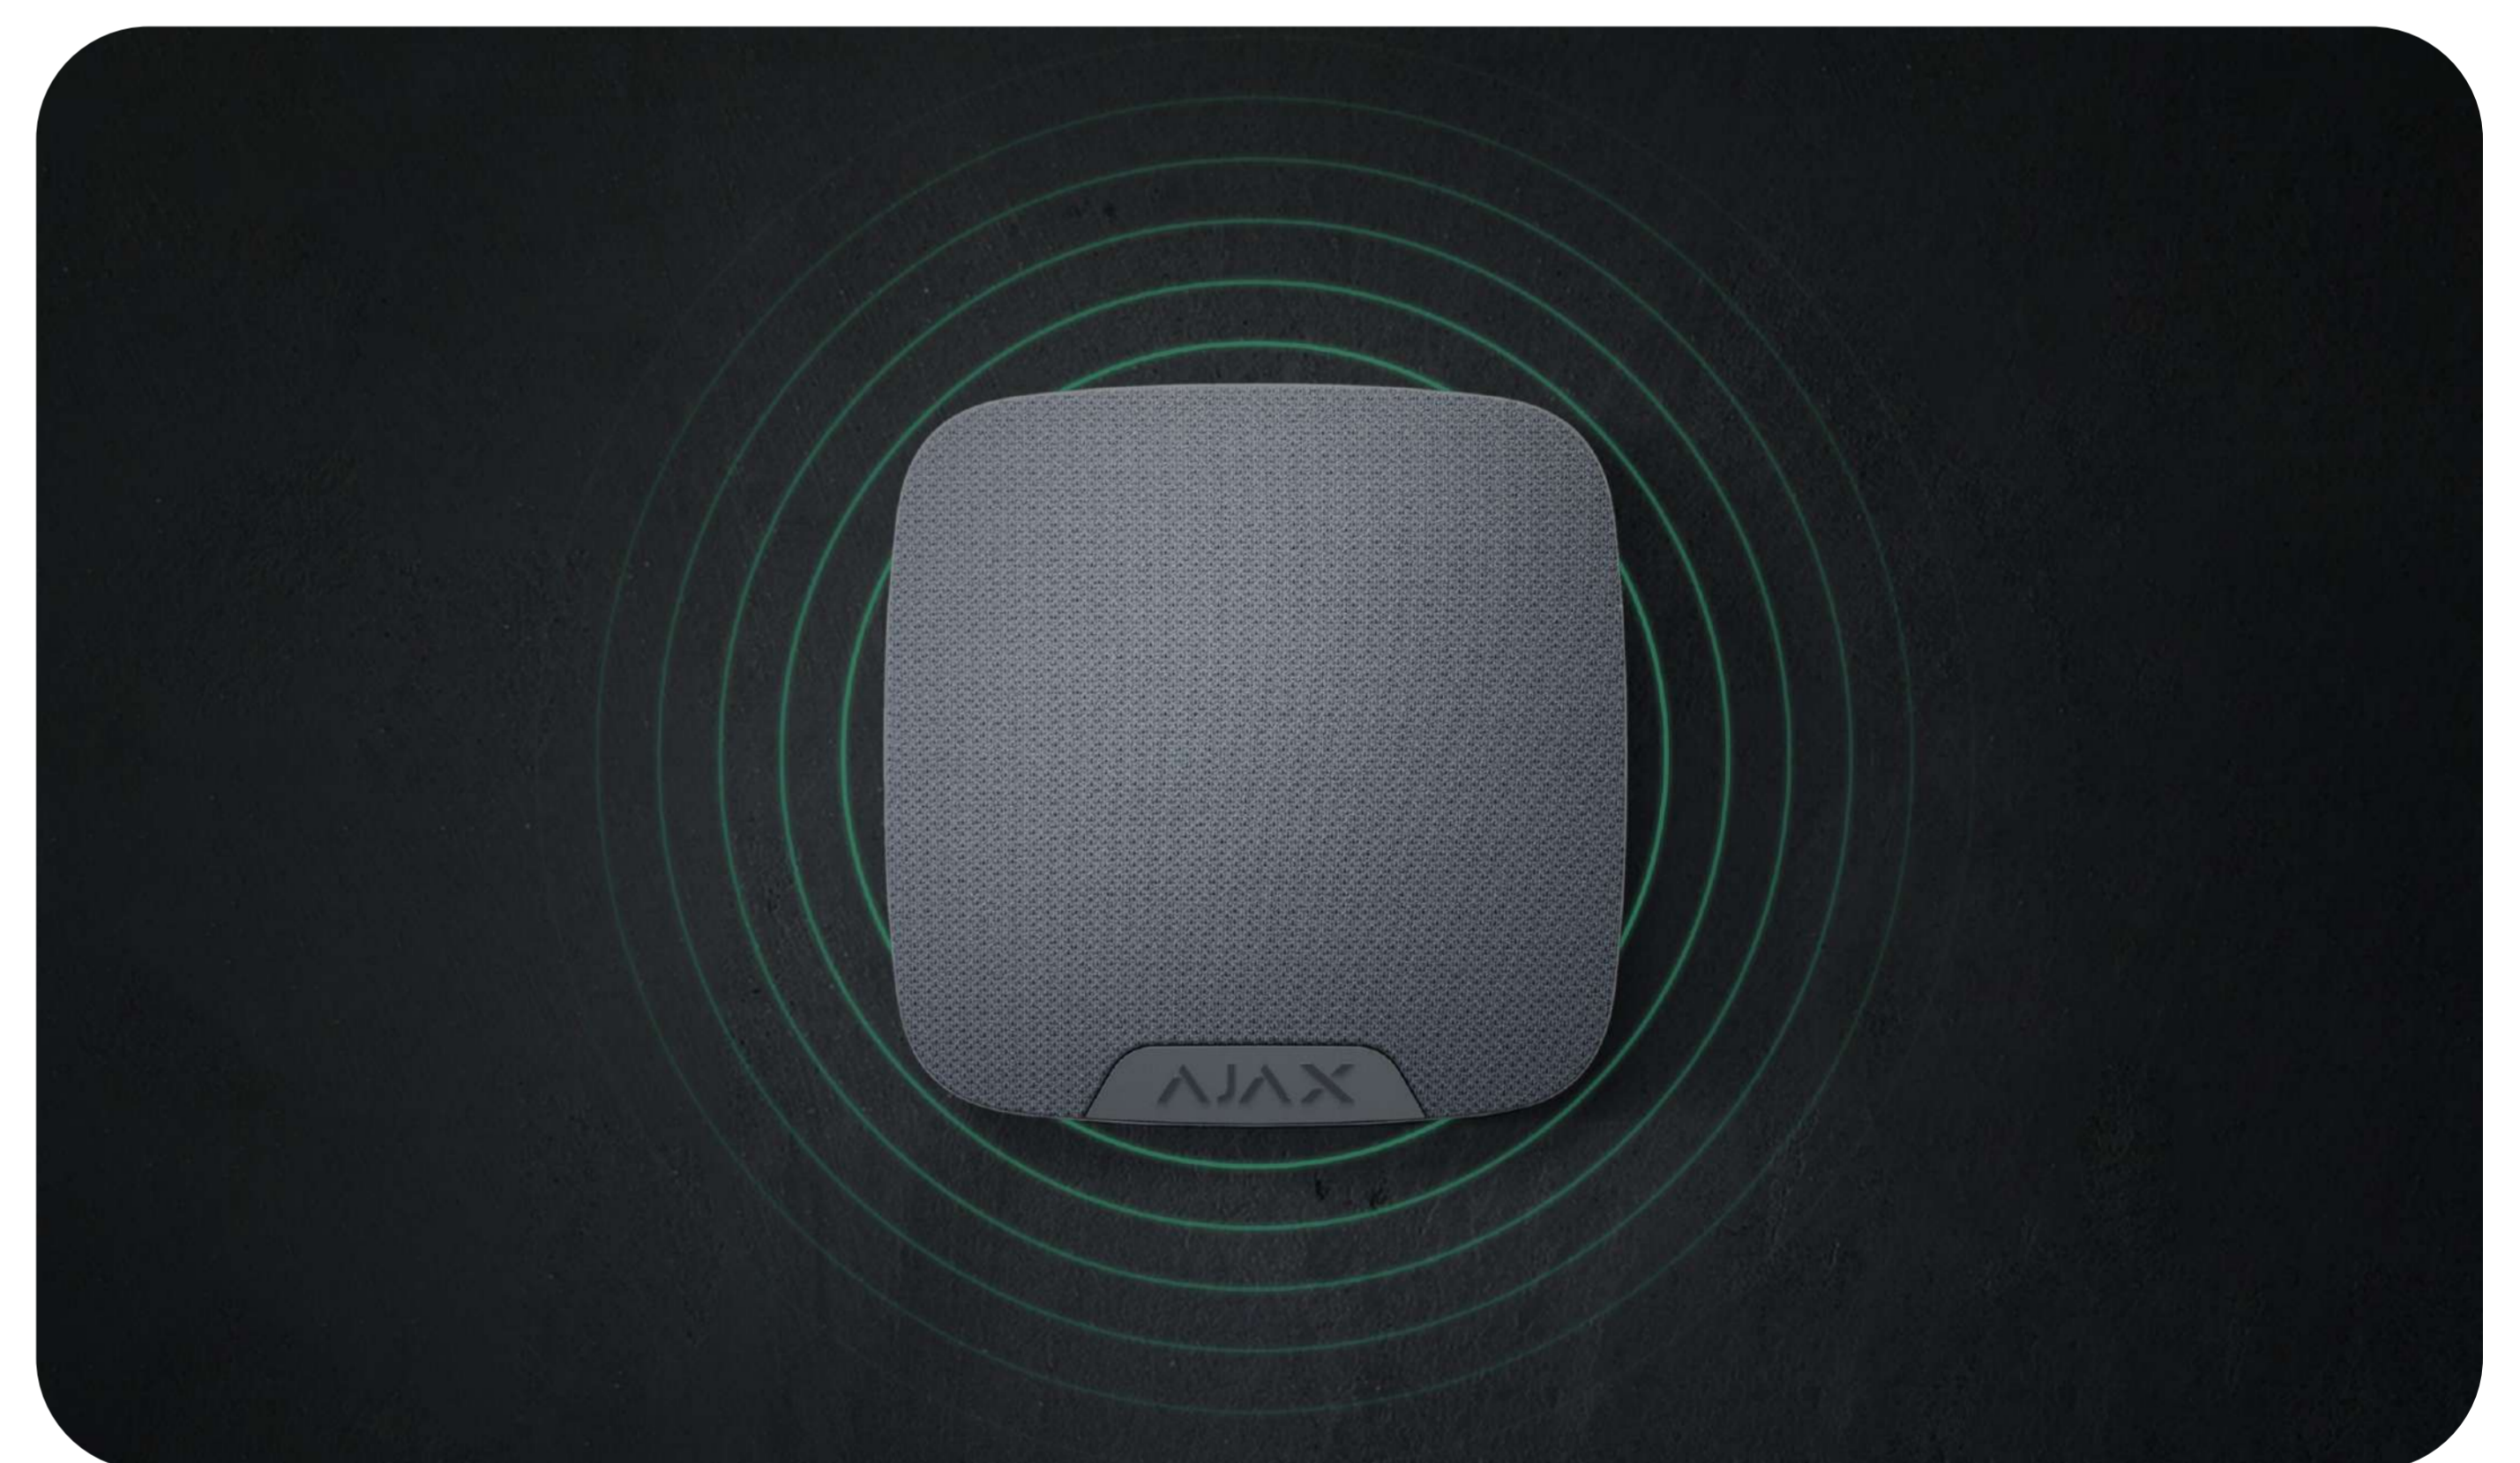

This is the device of the **Superior product line**. Superior products are advanced versions of Jeweller devices. This product line is developed for projects. Only accredited Ajax Systems partners can sell, install, and administer Superior products.

Informative alerts

The siren responds to tamper and security system alarms in less than a second. It is loud enough to scare away intruders and attract the attention of neighbours.

The siren LED notifies that the system is armed or disarmed, and a sound signal indicates delay when entering/leaving. These are helpful features for users who control the security system with a keypad or key fob.

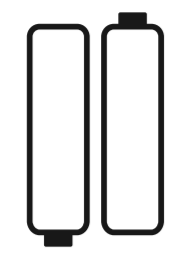

Jeweller communication technology

- Radio communication at a distance of up to 2,000 m in an open space
- Encryption and device authentication to prevent spoofing
- Regular polling to display current statuses of the devices

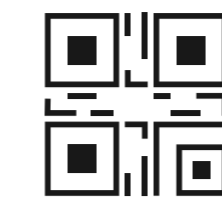

Event notifications

- Alarms of the system's devices
- Security status: armed/disarmed
- Door opening (Chime function)
- After-alarm indication

Flawless autonomy

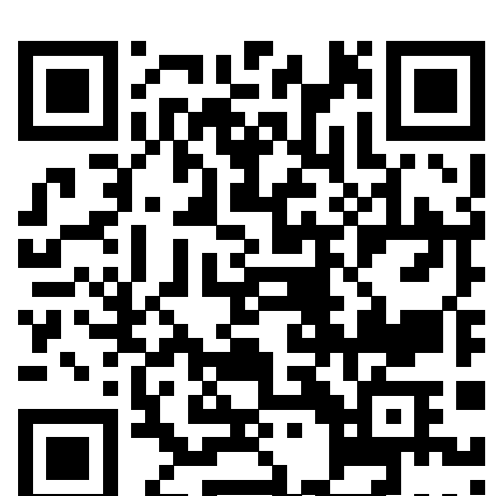

- Up to 5 years of battery life
- Low battery notifications
- Panasonic pre-installed battery

Quick installation and setup

- Pairing with a hub via QR code
- Remote control and configuration in the app
- Effortless installation and replacement
